Behnoosh Farzanmanesh

Product Management | Product Analytics
farzanmanesh.behnoosh95@gmail.com | linkedin.com/in/behnoosh-farzan-85b419139

PROFESSIONAL SUMMARY

Industrial Engineering graduate (M.Sc., Optimization) with hands-on e-commerce experience in product page optimization, search performance, customer behavior analysis, and growth experiments. Applied JTBD, roadmapping, RICE prioritization, PRD writing, A/B test design, and SQL/Metabase analytics in course projects. Seeking an entry-level Product Manager or Product Analyst role.

EXPERIENCE

E-commerce & Business Operations Analyst Dec 2025 – Present
Family Retail Business — Stationery & Toys | Iran

- Analyzed Google Search Console and Google Analytics data to identify product-level SEO and commercial opportunities, optimizing 15+ product pages across titles, descriptions, keywords, and on-page SEO.
- Conducted competitor, pricing, and customer behavior analysis to inform product assortment and commercial decisions.
- Designed and tested promotional experiments, including tiered discounts, targeted SMS campaigns, and category-specific offers, timing them to weekend and holiday purchase peaks observed in order data.
- Planned content and promotional activities, contributing to 29% Instagram follower growth (2,139 → 2,761) in one month.

Innovation & Entrepreneurship Workshop Assistant 2017 – 2018
Kosar University of Bojnord

- Coordinated entrepreneurship and innovation workshops in collaboration with the Science and Technology Park.
- Guided students on project forms and documentation for submitting their business ideas.

EDUCATION

M.Sc. in Industrial Engineering (Optimization) 2019 – 2022
Iran University of Science and Technology (IUST) | Thesis: ICU Mortality Prediction Using Machine Learning

B.Sc. in Industrial Engineering 2014 – 2018
Bojnord University

SELECTED COURSE PROJECTS

Product Management Final Project — Gold Trading Platform | Course Project, Individual

- Reframed a post-sale withdrawal problem as a retention opportunity using JTBD, behavioral segmentation, and a “Value of Staying” framing.
- Prioritized MVP solutions using Impact/Effort and RICE, selecting a Holding Incentive, Post-Sale Choice Screen, and Targeted Notification.
- Developed a PRD covering user flows, requirements, acceptance criteria, success metrics, and an A/B test plan with Scale/Iterate/Stop decision criteria.

Product Roadmapping & Backlog Management | Course Project, Team

- Analyzed a product funnel to identify activation and monetization bottlenecks and translated business goals into an outcome-based roadmap.
- Defined product outcomes and quarterly priorities across Activation, Engagement, Retention, Monetization, and Growth.
- Prioritized backlog items using RICE and translated selected items into User Stories with BDD-based Acceptance Criteria.

Product Analytics & Growth Analysis (SQL, Metabase) | Course Project, Team

- Queried product, marketing, commercial, and inventory data using SQL and built Metabase dashboards to evaluate product and business performance.
- Identified product and growth issues, including low AI Consultation adoption and a conversion gap between consultation and non-consultation users.
- Flagged inefficient campaign budget allocation and inventory imbalances, and proposed solutions across consultation UX, marketing allocation, and demand-based inventory management.

User Needs Analysis — Educational Audio Course | Course Project, Team

- Analyzed user interviews to identify user needs, usage contexts, and motivations around audio-based learning.
- Synthesized findings into customer segments, JTBD, value propositions, and product requirements.

SKILLS

Product: Product Discovery, User Research, JTBD, PRD, Roadmapping, RICE Prioritization, A/B Test Design
Analytics & Growth: SQL (Joins, Aggregations, Subqueries), Metabase, Excel, Google Analytics 4, Google Search Console, SEO, Market & Competitor Analysis
AI & Technical: Prompt Engineering, Python (Basic)

LANGUAGES, COURSES & CERTIFICATIONS

Languages: Persian (Native); English (IELTS 7.0, CEFR C1)
Courses: Product Management, Bozhan School; Python Programming Course; Google Digital Marketing (In Progress)
